**Aqara**

# AQARA CUBE T1 PRO

Motion control cube for the home, allowing management of lights and smart devices through gestures, with Zigbee connectivity

REF : AQ-CTP-R01

EAN : 6970504217614

EXISTS IN : WHITE

## DESCRIPTION :

**Aqara Cube T1 Pro – A small cube with big ideas**

Twist it, shake it, flip it… and your home responds! With its **6 dice-like sides**, each move controls a light, a scene, or a device. No need to remember complicated combinations — **each side does something different**.

This little cube is **compatible with Apple HomeKit, Alexa, IFTTT**, and soon **Matter**. (An Aqara Zigbee 3.0 hub is required to connect it.)

Choose your favorite mode:

- **Scene Mode**: each side activates an ambiance or a device.
- **Action Mode**: shake, push, rotate 90° or 180°, and more.

(Both modes cannot be used at the same time.)

**Up to 2 years of battery life** thanks to ultra-low power consumption. No recharging, no worries.

## STRENGTHS :

**Supports Popular Ecosystems**

Thanks to the new Scene Mode, the Cube T1 Pro can now be used as a HomeKit controller. It also supports Alexa, IFTTT, and other ecosystems*.

**Side & Gesture Control in Scene Mode**

With dice-like indicators, you can use the six sides to control different scenes or devices. Rotate, shake, hold, or trigger after one minute of inactivity to unlock more possibilities.

**Action Mode from the Classic Cube**

You can also activate the Action Mode of the T1 Pro. Push, shake, rotate, double tap, rotate 180°, 90°, or trigger after one minute for more interactive control while keeping the features of the original cube.

**Future-Proof with OTA Updates***

The Cube now supports OTA updates, meaning new features and fixes can be added even after the product is released.

**Up to 2-Year Battery Life**

Ultra-low power consumption makes it more eco-friendly and lets you forget about changing batteries for years.

**Rotate to Control**

You can adjust the brightness or color temperature of Aqara lights** or the curtain opening percentage simply by rotating the cube — everything is configurable in the Aqara Home app.

* An Aqara Zigbee 3.0 hub is required.
** Compatible Aqara lights are required.
