DESCRIPTION :

The family's contactless wallet. A new way of entrusting money to your children to enable them to gradually acquire autonomy in complete safety. For small contactless purchases at local shops. Linked to a mobile application that allows you to recharge it, track spending and block it if necessary.

STRENGTHS :

- Easy to use and secure
- Compatible with all payment terminals
- About the size of a small pebble, fits in the hand
- To create the parent-child dialogue
- And give autonomy smoothly
