DESCRIPTION :

Introducing the Plasma XTE case, a blend of cutting-edge design and unwavering protection. Check out the perfectly integrated kickstand that lets you switch between landscape and portrait viewing modes. From hands-free photos to video calls, the Plasma XTE keeps you connected and entertained with ease. Precision-engineered, the feather-light composite construction features the perfect balance of rugged durability and elegant profile. Discover the next level of shock resistance with airsoft corners, strategically designed for advanced cushioning against unexpected drops. The raised screen surround adds an extra layer of defense, shielding your glass screen from potential scratches and cracks, offering complete protection for your phone. Our case is also equipped with a powerful integrated magnetic module, offering seamless MagSafe charging compatibility. Plasma XTE - the complete package.
