

## NEXT GEN CABLE USB-C PD ULTRA 240W (3M) BLACK

High-Speed 3-Meter USB-C to USB-C Power Delivery Cable  
Supporting Up to 240W with 480Mbps Data Transfer

REF : XT-CX3101

EAN : 8718182278941

EXISTS IN : BLACK

### DESCRIPTION :

The extra-long USB-C PD Ultra 240W UltraCharge+ travel cable is perfect for charging high-power devices. The 3-meter-long cable allows you to charge a MacBook, gaming laptop, or any other USB-C laptop at lightning speed. Of course, this cable is also suitable for charging your smartphone or drone. The durable braided cable is tough and, thanks to the E-marker chip, very safe. The included cable tie keeps the cable neatly coiled and makes this cable #NextGenProof.

### STRENGTHS :

- **Ultra-strong and secure connection:** Xtorm xFlex technology featuring a robust braided cable with reinforced core and durable Duo Core connector. USB-C connectors reinforced with Xtorm C-Lock technology for a solid connection. Integrated high-quality cable clamp. E-marker chip protects against overheating and ensures safe data and power transfer.
- **Durable and highly flexible:** Made with FlexCore (inside) and DuraCore (outside) using mostly GRS-certified recycled TPU. Withstands over 30,000 bends and won't break even under 80 kg of pressure. Ideal cable for camping, hiking, or everyday travel — #NextGenProof.

### CHARACTERISTICS :

- **Cable length:** 3.00 m
- **Ethernet cable:** No
- **Lightning cable:** No
- **Micro USB cable:** No
- **USB-C cable:** Yes
- **USB-C to USB-C cable:** Yes
- **Data speed:** 480 Mbps
- **HDMI cable:** No
- **Made For iPhone/iPod/iPad:** No
- **Power transfer:** 240 W

- **USB-C Power Delivery cable:** Yes

## COMPATIBILITY :

USB-C to USB-C
