

DIN RAIL ENCLOSURE V3 (POWER VERSION)

DIN rail support for power modules: quick integration into the electrical panel

REF : NO-DRB-1-3-10

EAN : 3700313926314

EXISTS IN : WHITE

DESCRIPTION :

Accessory that allows mounting and powering power home automation modules directly in the electrical panel on a DIN rail. Ideal for both new builds and renovations: it saves time, avoids wiring work for pilot wire heating control, and simplifies consumption monitoring when combined with measurement-enabled modules. Modules are quickly mounted and connected; sold separately.

STRENGTHS :

- Time-saving for project and on-site installation.
- Allows pilot wire heating control without new wiring.
- Facilitates real-time consumption monitoring (with metering modules).
- Quick and safe installation and commissioning in the electrical panel.
- Compatible with most residential and commercial panels (O rail EN 50022).
- Compact and lightweight, takes up little space in the panel.

CHARACTERISTICS :

- Compatible modules: SIN-X-1-20, SIN-1-21, SIN-X-FP-21 (modules sold separately).
- Compatible functions: multifunction with/without metering, pilot wire heating.
- Compatible DIN rail: type O EN 50022.
- Maximum current: 14 A.
- Operating temperature: -20 °C to +40 °C.
- Protection rating: IP20.
- Dimensions: 82 × 66 × 25 mm.

- Weight: 49.5 g.
- Connection terminals: 1-6 (simple wiring to panel).
- Main standards: EN 60947-7-1; secondary standard: EN 61984.
- Commercial warranty: 2 years.
- Reference: DRB-1-3-10 (EAN pack x5: 3700313926314).
