

## SNAPCREATOR KIT PRO MIDNIGHT

Pro Kit — includes: SnapGrip Pro, SnapStand Max, SnapStudio Light, and SnapStudio Pouch

REF : SC-S-AE06-MN

EAN : 0799793507468

EXISTS IN : BLACK

### DESCRIPTION :

The SnapCreator Kit Pro is an all-in-one mobile studio designed for content creators: it combines a powerful, adjustable light, a full-height stable tripod, and an ergonomic grip with built-in battery. Its parts magnetically assemble in seconds to turn any smartphone into a portable recording station. Perfect for vlogs, live streams, reels, and on-the-go photography: illuminate, stabilize, and power your mobile device so you can focus purely on creating.

### STRENGTHS :

- Fully portable studio: everything you need to record in a single compact kit.
- Fast, magnetic assembly: instant setup and secure hold during recording.
- Professional lighting: adjustable light to always get the perfect tone and exposure.
- Hands-free stability: full-height tripod for dynamic framing and vibration-free shots.
- Built-in power: a power bank to charge your phone during long sessions or outdoors.
- Remote control: Bluetooth shutter for photos and videos without touching your phone.
- Wide compatibility: works with MagSafe iPhones and Android phones using magnetic cases.
- Easy transport: included travel pouch to take the kit anywhere.

### CHARACTERISTICS :

- Dimensions: 113.3 x 81.74 x 34.1 mm
- Net weight: 126.82 g
- Power bank: 3.7 V / 3200 mAh / 11.84 Wh (built-in)
- Wireless charging output: DC 5 V / 1 A / 5 W (Qi compatible)

- USB-C input: DC 5 V / 2 A / 10 W
- Integrated Bluetooth shutter button

#### SnapStand Max

- Full-height tripod with tilt control
- 180° pivot system for quick switch between horizontal and vertical orientation
- Mobile base/dock with a 12.5° angle for a stable and ergonomic support
- 360° ball head for creative framing

#### SnapStudio Light

- LEDs: 102 LEDs
- Settings: 10 brightness levels and color temperature adjustment (precise for photo and video)
- Battery life: up to 2.5 hours depending on brightness level
- Magnetic mount for integration with the rest of the kit

#### Kit Connectivity & Power

- Secure magnetic connection between accessories
- Bluetooth shutter for remote control
