

UNIVERSAL S.MOUNT

LensUltra universal mount for smartphones, tablets, and laptops

REF : SC-S-CC01-BK

EAN : 0799793506911

EXISTS IN : BLACK

DESCRIPTION :

The LensUltra Universal S.Mount is a compact and rugged lens clamp that lets you use your favorite optics on smartphones, tablets, and computers without any compatibility hassles. Its innovative **S.Mount** system with a twist-lock mechanism replaces traditional screw threads, enabling fast, secure, and effortless lens changes. With a lightweight aluminum body, multi-layer AR coating, and a built-in cold shoe mount, it provides a professional, portable solution for photography and video on any device.

STRENGTHS :

- Full compatibility: works with smartphones, tablets, and laptops, extending your lens usage across multiple devices.
- Ultra-fast lens change: twist-lock S.Mount system for mounting and dismounting lenses without screwing.
- Stability and grip: built from aluminum with a non-slip surface for secure attachment without slipping.
- Accessory versatility: built-in cold shoe for microphone or fill light during shoots and recordings.
- Lightweight and portable: just 85?g according to the manufacturer.
- Practical solution: includes 2 M12-to-S.Mount converters to adapt different lenses immediately.
- Professional without bulk: easy to use, avoiding bulky rigs — ideal for mobile shoots and location work.

CHARACTERISTICS :

- Mount: S.Mount (thread spec F12 × P0.75)
- Net weight: 85?g
- Lens opening diameter: 12?mm
- Device thickness compatibility: 3.5 mm – 16 mm

- Material: aluminum (precision mount)
- Coating: Multilayer AR Coating
