Aqara

NFC TAG ACCESS CARD (COMPATIBLE FOR AQARA SMART LOCK U200)

NFC Card for Aqara U200

REF : AQ-AL-D02D

EAN : 6970504219946

EXISTS IN : BLACK

DESCRIPTION :

NFC access card compatible with the Aqara Smart Lock U200. Designed for fast and secure access, this card allows keyless door unlocking in residential or commercial environments. Compact, durable, and battery-free, it is the ideal solution for staff, visitors, and services that require frequent and controlled access.

STRENGTHS :

- Keyless access: quick unlocking by simply bringing the card close to the Aqara U200 lock reader.
- Easy management: perfect for installations with multiple users (employees, service staff, guests).
- Professional design: card format (badge style) easy to carry in a wallet or on a keychain.
- Maintenance-free: passive, requires no battery or charging.
- Compatible and reliable: made to work with the Aqara Smart Lock U200 system for easy deployment.
- Ideal for various environments: suitable for homes, offices, accommodations, and small businesses using smart locks.

CHARACTERISTICS :

- Technology: NFC (passive proximity card).
- Compatibility: designed for Aqara Smart Lock U200 (and compatible with NFC readers supporting the same standard).
- Typical NFC chip: NTAG (e.g., NTAG213) — user memory sufficient for identification and access commands.
- Power: passive (battery-free).
- Material: rigid PVC (credit card-like) or similar, durable for daily use.
- Approximate dimensions: CR80 card format — 85.6 × 54 × ~0.76 mm.

- Approximate weight: 5–10 g.
- Security: proximity identification; management and permissions controlled via the Aqara system app.
- Operating conditions: typical NFC card temperature and humidity range (indoor use and protected outdoor use).
