

WORKFLOW CASE CHARGE CRADLE BLACK

Workflow Case Docking Station

REF : UA-WF0000084040

EAN : 0840283919565

EXISTS IN : BLACK

DESCRIPTION :

The Workflow docking station is a professional charging solution designed for logistics and industrial environments. Robust and easy to use, it simultaneously charges the device, the battery integrated in the case, and an additional battery pack, while remaining compatible with standard and extended-life packs. Ideal for logistics, warehousing, and transportation — with a healthcare-compliant option available.

STRENGTHS :

- Complete charging: charges the phone, the battery integrated in the case, and an additional battery pack.
- Wide compatibility: works with standard and extended battery packs and all Workflow cases.
- Professional use: designed for logistics, warehousing, and transportation — easy to deploy in bulk.
- Healthcare option: version adapted for medical environments available.
- Easy deployment: stable vertical design for quick insertion/removal in workflow operations.

CHARACTERISTICS :

- Charging functions: simultaneous charging of the phone, the onboard battery, and an additional battery pack.
- Battery compatibility: compatible with standard and extended packs.
- Recommended verticals: Logistics, Warehousing, Transportation.
