

CYGNETT**FRAMEO 10.1**

Wi-Fi digital photo frame with interchangeable frames

REF : CY-CY5876CYDPF

EAN : 0848116053134

EXISTS IN : MULTICOLOR

**DESCRIPTION :**

The Cygnett Frameo 10.1" is a digital photo frame designed to make sharing photos with family and friends easy and fast. With the Frameo app, you can send photos directly from your smartphone to any connected Frameo frame, no matter where your loved ones are; the images appear within seconds, with no social networks or subscriptions required. With 16 GB of internal storage, support for MicroSD cards up to 128 GB, interchangeable frames, and built-in reactions, it's the ideal solution to keep memories alive and receive new photos in real time.

STRENGTHS :

- Instant sharing: send photos and videos from the Frameo app and they appear on the frame within seconds.
- Easy for everyone: designed for family and friends; no technical skills or social media accounts required.
- Category-leading memory: 16 GB internal storage, expandable via MicroSD up to 128 GB to store thousands of photos.
- Interchangeable frames: three finishes available (Deep Black, Brilliant White, and Mocha) so the frame matches any décor.
- On-device interaction: recipients can react to received photos directly on the frame.
- App with a large user base: Frameo has over 11 million downloads and was the most downloaded app in Australia at Christmas 2023.
- No subscriptions: free app use to send and receive photos.
