

## SNAPSTAND MAX MIDNIGHT

Foldable tripod and selfie stick (extendable up to 180 cm)

REF : SC-S-AB03-MN

EAN : 0659629289404

EXISTS IN : BLACK

### DESCRIPTION :

The SnapStand Max is a professional and versatile tripod/selfie stick designed for creators who need both stability and portability. Its robust aluminum structure provides secure support even for larger smartphones, while its foldable design reduces it to the size of a MacBook Air for easy transport. With an adjustable height of up to 180 cm, a tilting head, and magnetic MagSafe-compatible mounting, the SnapStand Max enables dynamic framing and hands-free shooting for vlogs, live streams, tutorials, and on-the-go photography.

### STRENGTHS :

- Maximum height of 180 cm for wide shots and framing from greater distances.
- Foldable and ultra-portable: folds down to 28 cm (similar to the size of a MacBook Air) for hassle-free travel.
- 2-in-1 versatility: works as both a selfie stick and a stable tripod for hands-free content.
- MagSafe magnetic mount: quick and secure attachment with magnetic cases.
- Tilttable head (200°): flexible adjustment to achieve the perfect angle in every shot.
- Professional stability: durable aluminum construction that keeps your device steady even in demanding conditions.
- Bluetooth remote control: shoot from up to 10 m away for greater creative freedom.
- Includes SecureStrap for enhanced grip and improved device safety.

### CHARACTERISTICS :

- Extended height: 180 cm
- Folded height: 28 cm
- Head tilt range: 200°

- Material: aluminum (lightweight and durable structure)
- Magnetic compatibility: compatible with MagSafe and magnetic ring cases
- Connectivity: Bluetooth remote with up to 10 m range
- Usage modes: transforms into tripod, tabletop stand, and selfie stick

#### Box contents

- SnapStand Max (tripod / selfie stick)
- Bluetooth remote control
- SecureStrap (safety strap)

#### Compatibility and recommendations

- Compatible with any iPhone that supports MagSafe (iPhone 12 and later) and with Android phones or iPhones using magnetic cases.
- Ideal for vlogs, live streams, tutorials, fitness sessions, and outdoor photography.
- For maximum safety on non-magnetic models, use the SecureStrap and ensure a firm mounting before extending the height.

## COMPATIBILITY :

MagSafe, Certified Qi2
