

SNAP STUDIO LIGHT MIDNIGHT

Ultra-portable magnetic LED panel for creators (106 LEDs)

REF : SC-S-AC03-MN

EAN : 0799793506942

EXISTS IN : BLACK

DESCRIPTION :

The Snap Studio Light delivers professional-quality lighting in a compact format for mobile creators. Thanks to its magnetic mounting system and compact design (38% smaller than a traditional ring light), it provides uniform and powerful illumination that removes shadows and enhances natural tones, whether for vlogs, live streams, social photography, or outdoor shooting. It operates on battery or power, offers precise temperature and brightness control, and integrates easily into any workflow thanks to its rotating magnetic mount and detachable stand.

STRENGTHS :

- Professional lighting on the go: studio-quality illumination without the size or weight of traditional gear.
- High power: up to 600 lm with external power for bright and crisp results.
- Versatile in real-world use: battery-powered (wireless mode) or plugged in for long sessions.
- Precise creative control: adjustable color temperature and brightness in fine steps to recreate the desired atmosphere.
- Quick and secure mounting: magnetic attachment that lets you position and angle the light instantly.
- Space-saving design: 38% smaller than conventional ring lights, easily fits in your bag.
- Effortless angle changes: rotation designed for switching between front/rear cameras and adjusting the angle quickly.
- Practical accessories: detachable screw mount for tripod or surface mounting.

CHARACTERISTICS :

- LEDs: 106 LEDs

- Brightness: 440 lumens (battery use) / 600 lumens (with external power)
- Color temperature: 2,500 K – 6,000 K (10-step adjustment)
- Power / battery: 4.07 Wh, 3.7 V / 1,100 mAh (internal battery)
- USB-C input: 15 W (DC 5 V / 3 A)
- Magnetic mount: rotating magnetic mount (allows switching front/rear and adjusting position; 180° tiltable)
- Dimensions: 225 × 143 × 16.5 mm
- Design: ultra-portable (38% smaller than traditional ring lights), detachable screw mount
- Phone flash comparison: 8–12× brighter than an iPhone flash when connected to external power

Included accessories / notes

- Detachable screw mount (for tripod or stand)
- Integrated magnetic mount — designed for quick use without clamps

COMPATIBILITY :

MagSafe, Certified Qi2
