DESCRIPTION :

Studio Max is the “smarter” iPad case: it combines certified protection, a lightweight design, and features built for daily productivity. Its durable polycarbonate shell absorbs impacts while the transparent back allows for labeling and customization. The patented magnetic cover folds into a stand for writing or viewing content, and it includes integrated storage for the Apple Pencil. Ideal for students, professionals, and institutional deployments needing a robust solution without adding unnecessary bulk.

STRENGTHS :

- Full protection without extra weight: a robust shell that shields against bumps and drops without adding bulk.
- 2-in-1 magnetic stand: patented cover that wakes/sleeps the iPad and transforms into a stable stand for writing or viewing.
- Apple Pencil always within reach: integrated, secure holder for the Pencil (keeps it accessible and protected).
- Transparent, asset-tag-ready back: streamlines inventory management and customization in educational or corporate environments.
- Reinforcement at critical points: strengthened corners and “impact trussing” that absorb and redirect shock energy.
- Unrestricted access and use: easily accessible buttons and ports for smooth use in class, at work, or on the go.
- Lightweight and stylish: refined profile that fits into bags and backpacks without sacrificing style or protection.
- Designed for all environments: from classrooms and device carts to clinics, retail settings, and fieldwork.
