ADJUSTABLE CYLINDER

Adjustable cylinder for Smart Lock U200

REF : AQ-AL-D04E

EAN : 6975833358519

EXISTS IN : SILVER

DESCRIPTION :

Adjustable replacement cylinder for the Aqara U200 smart lock; allows the lock to be adapted to doors of different thicknesses without changing the main mechanism. Quick installation, durable finish and full compatibility with the U200 system to maintain original security and design.

STRENGTHS :

- Compatible with the Aqara U200 smart lock.
- Easy adjustment: adapts the cylinder length to different door thicknesses.
- Installation without construction work or changes to the lock body; quick replacement.
- Maintains full integration and smart lock features (Bluetooth/Smart Home).
- Modern and discreet finish that preserves the door's aesthetics.
- Enhances security and convenience by allowing tailored solutions.
- Ideal for new installations as well as replacement or upgrades.

CHARACTERISTICS :

- Cylinder type: adjustable Euro-profile / modular cylinder compatible with U200.
- Adjustment range: longitudinal adjustment to fit common door thicknesses — confirm exact measurements in mm.
- Material: high-strength metal alloy (brass/nickel-plated or similar).
- Finish: corrosion-resistant chrome/nickel plating.
- Security: anti-drill / anti-pick design (according to manufacturer specifications).
- Operating temperature and tolerances: as specified in the manufacturer's datasheet.
- Includes: adjustable cylinder, mounting screws and installation manual.
