

TRIO 3 PRO (1400P QHD) BLACK

2 Portable QHD Monitors – For triple-screen setup with 15" to 16" laptops

REF : MB-101-1004P06

EAN : 0810130760763

EXISTS IN : BLACK

DESCRIPTION :

The **Trio 3 Pro** is the ideal solution for professionals who need more workspace without sacrificing mobility. This system includes **2 QHD monitors (2560x1440)** that attach to your laptop, creating a **triple-screen** setup with your computer. Enjoy a more efficient workflow, accurate colors (100% sRGB), adjustable viewing angles, and an anti-glare coating to reduce eye strain.

Designed to be **ultra-portable and durable**, each screen weighs only around 600 g, folds easily, and travels effortlessly with your laptop. The Trio 3 Pro is powered directly by your device via **USB-C / USB-A** and **does not include a built-in battery**.

Compatible with **Windows, macOS, and Linux**, it installs quickly and easily. Depending on your computer's configuration, a driver or adapter (USB-C with DisplayPort Alt Mode or a video adapter) may be required to support multiple external displays.

Ideal for remote work, graphic design, programming, video editing, and intensive multitasking, the Trio 3 Pro maximizes your productivity in any environment.

Take your productivity to the next level with the **Trio 3 Pro**.

STRENGTHS :

- **2 portable QHD monitors** that allow you to create a triple-screen setup with your laptop.
- **Foldable and portable design**, ideal for professionals on the go.
- **USB-C / USB-A connectivity**, compatible with Windows, macOS, and Linux (may require an adapter or hub depending on the computer model).
- **IPS panels with close to 100% sRGB coverage**, delivering accurate colors for design and editing.
- **Adjustable angles up to 270°**, enabling ergonomic and versatile configurations.

- **Anti-glare coating** to reduce eye strain during long work sessions.
- **No built-in battery**: the screens are powered directly by your computer via USB.
- **Lightweight and durable construction**, easy to carry with your laptop.
- **Easy installation**, with minimal software setup depending on your system.
- **Ideal for remote work, programming, graphic design, video editing, and multitasking.**
- **Includes a USB-C cable** (and other accessories depending on the selected bundle), as well as a quick start guide.
- **Multi-monitor compatible**, to efficiently expand your workspace.
