EAN : 855848009896

EXISTS IN : BLACK, ORANGE, GREEN, BLACK, ORANGE,
GREEN, BLUE, BLUE, GREEN, GREEN

DESCRIPTION :

Stratos blends the solid presence of Grade 4 titanium with the technical comfort of compression-molded FKM: it looks like a metal bracelet and feels like a sport band. Its scratch-resistant DLC finish, ventilation channels in the FKM core, and micro-adjustable magnetic clasp provide durability, comfort and a precise fit for everyday wear and intense training. The hybrid design reveals the FKM color, giving an industrial, contemporary character that elevates any Apple Watch.

Designed to accompany you in the city, the gym and the water, Stratos includes an adjustment tool and extra links for fine-tuning (designed for wrists 130-200 mm) and is available in Black or Natural titanium with FKM in Black, Volt or Ultra Orange. It's the perfect choice if you want durability, premium style and versatility in a single band.

STRENGTHS :

- Distinctive hybrid design: refined metal bracelet appearance with FKM inserts that add chromatic contrast and a contemporary vibe.
- Premium aesthetic: matte, textured finish that pairs perfectly with the Apple Watch Ultra and sporty or casual watches.
- All-day comfort: soft, flexible FKM core that reduces chafing, adapts to movement, and improves on-skin feel.
- Breathable and functional: ventilation channels within the FKM minimize moisture build-up during workouts.
- Durable performance: selected materials and DLC coating for increased scratch resistance and everyday durability.
- Secure, precise closure: micro-adjustable magnetic clasp for quick size changes and reliable retention during activity.
- Easy, customizable fit: includes adjustment tool, extra links and spring bar system to achieve the perfect size in minutes.
- Style versatility: Black or Natural titanium combinations with FKM in Black, Volt or Ultra Orange to match your look.

CHARACTERISTICS :

- Main materials: exterior links, adapters and buckle in Grade 4 titanium; interior links in compression-molded FKM (elastomer).
- Titanium coating: DLC (Diamond-Like Carbon) finish, scratch-resistant for improved surface durability.
- FKM: specially formulated, PFAS-free FKM with internal ventilation channels for comfort and faster drying.
- Closure & magnetism: micro-adjustable buckle with 1.8 mm fine-tuning; Grade N52 nickel-plated magnet treated for corrosion resistance.
- Attachment system: stainless steel spring bars for easy and secure mounting to the watch case.
- Fine adjustments included: two 3/4-links for additional calibration; kit includes adjustment tool, extra links and spring bars.
- Mechanical strength: withstands a 5–20 kgf lateral slide-out force when properly installed.
- Dimensions & weight: width 23.5 mm; approximate maximum weight 55 g (varies by configuration).
- Wrist range: designed for wrists 130–200 mm (one size fits most with adjustments).
- Box contents: Stratos band, adjustment tool, extra links and spring bars for installation.

COMPATIBILITY :

Apple Watch 44/45/46/49mm - compatible 42mm (Series 0-3)
