### DESCRIPTION :

**The ultimate 3D surround sound experience that will blow you away.**

You've never heard sound like this before, whether in your living room or elsewhere. Much more than just an exceptional soundbar, it's a complete audio system. The bar is equipped with MultiBeam™ and six speakers (four in the bar and two in the battery-powered surround speakers) that deliver powerful Dolby Atmos® and DTS:X 3D surround sound, so you can focus on your music, movies, and games. A total output power of 1,170W and exceptional bass from a 10" (260mm) subwoofer are enough to make the room vibrate. However, you'll never miss a word thanks to our PureVoice technology, which ensures clear dialogue even when other sounds are at their loudest. When you want to enjoy your favorite tracks, choose the option to stream music via AirPlay, Alexa Multiroom Music (MRM), or Chromecast built-in™, which offer you over 300 music streaming options. But that's not all. Your choices are as unlimited as you are, because you can also pair the soundbar with your Bluetooth device. You can even take one of the detachable speakers (or both for powerful stereo sound) to your kitchen or patio to listen to your favorite music or podcast.

### STRENGTHS :

#### **True Dolby Atmos®, DTS:X, and MultiBeam™ surround sound**

Immerse yourself in cinema-quality 3D sound. With four indirect-radiating speakers in the main bar and two more in the detachable speakers, the JBL Bar 1300 delivers true Dolby Atmos® and DTS:X with MultiBeam™ for an enhanced 3D surround sound experience.

#### **True surround sound with detachable surround speakers**

Enjoy true surround sound without the hassle of extra wires and power connections. Simply place the two detachable

battery-powered surround speakers behind you and let the incredible sound carry you away.

**Built-in Wi-Fi with AirPlay, Alexa Multi-Room Music, and Chromecast built-in™**

Get ready to explore. Access over 300 streaming services via AirPlay, Alexa MRM, and Chromecast built-in™. Enjoy your favorite audio content, internet radio, and podcasts in high definition. Wi-Fi also enables automatic software updates, so you can always enjoy the latest features.
