

PIXCASE

27" Full HD touchscreen integrated into a convertible case

REF : MB-121-1001P01

EAN : 810130760695

EXISTS IN : BLACK

DESCRIPTION :

Turn your laptop into a professional workstation in seconds. PixCase combines the protection and portability of a premium sleeve with the productivity of an integrated second screen: more space for your windows, fewer interruptions, and a much smoother workflow. Ideal for creators, remote work, and travel, PixCase helps you get more done in less time, with a sleek and functional design that protects your device while keeping you connected and ready for any task.

STRENGTHS :

- Smooth gaming and multitasking: 16 GB of RAM for lag-free sessions and quick app switching.
- Immersive visual experience: 27" Full HD display that enhances gaming, movies, and creative work.
- Natural interaction: 10-point touch screen for tapping, drawing, or gesture control.
- Unique portability: transforms into a compact suitcase for easy transport and protection.
- Unlimited app library: full access to Google Play to install games, tools, and entertainment.
- Mobility-ready battery life: up to 5 hours of battery for use away from home or the office.
- Powerful sound: built-in 40 W speakers that fill the room without external speakers.
- Versatile connectivity: multiple ports (HDMI, USB-A, USB-C) for displays, peripherals, and charging.
