

## TUNE 680 NOISE CANCELLING BT WHITE

Wireless noise-canceling on-ear headphones

REF : HA-JBLT680NCWHT

EAN : 1200130030451

EXISTS IN : racine, racine, racine, racine

### DESCRIPTION :

#### **Purebass, no noise**

Your music takes center stage with the JBL Tune 680NC wireless headphones. JBL Pure Bass and immersive spatial sound surround you with clear, powerful music, while Adaptive Noise Cancellation lets you avoid distractions. The sleek on-ear design and subtle metallic details enhance the choice of stylish colors. Up to 76 hours of battery life means you can go a week between charges. And if you need to recharge, 5 minutes gives you 5 more hours, or simply plug in the detachable cable to keep enjoying your music. With 2 microphones that accurately pick up your voice, calls are clear on both ends. Seamless Bluetooth® switching lets you stay connected to all your devices, while easily customizing the sound of your music and crystal-clear calls with the JBL Headphones app. It's light enough to wear all day, but also foldable to slip easily into any bag when you turn off your music. From morning podcasts to late night playlists, the JBL Tune 680NC headphones are designed to keep up with your pace and stand out from the crowd.

### STRENGTHS :

#### **JBL PureBass sound adds depth, power, and energy to everything**

you listen to. Custom 32 mm drivers deliver rich, dynamic sound, whether you're at work or immersed in your playlist. Our exclusive JBL Spatial Sound technology envelops you in your music as sound flows naturally in all directions, on any device. If you want even more detail and clarity, enjoy high-resolution audio with the included USB-C to 3.5 mm audio cable.

### **Adaptive Noise Cancellation and Smart Ambient technology**

Adaptive Noise Cancellation automatically adjusts to eliminate distractions, whether you're focused on your work or immersed in your music. Use Ambient Aware and TalkThru to hear what's going on around you or join in on conversations without taking off your headphones. Manage it all easily with the JBL Headphones app.

### **2 microphones with beamforming technology for perfect calls**

Two beamforming microphones accurately capture your voice without background noise, while our latest noise reduction technology filters ambient sound in the noisiest environments. So whether you're on a conference call in a busy café or chatting with a friend during your commute, your voice is clear and audible.

### **Up to 76 hours of battery life + Fast charging**

With up to 76 hours of battery life\*, your JBL Tune 680NC headphones will last longer than even your longest playlist. Need a quick boost? Five minutes of charging gives you five more hours of playback. And when it's time to recharge the battery, you'll get 100% in about two hours\*\*.

\* With RBA and Bluetooth® turned off. You can get up to 50 hours with it.

\*\* Charging cable not included

### **Multipoint connection with Bluetooth® 6.0**

Pair your headphones with two Bluetooth® devices, then switch between them effortlessly. Watch a movie from your tablet in the airport lounge without missing any boarding announcements from your phone. With Bluetooth® 6.0, enjoy high-quality streaming with reduced power consumption and latency. So the audio stays perfectly in sync, whether you're video chatting or watching a movie.

### **Lightweight, comfortable and foldable**

Stay comfortable no matter how long you listen, thanks to the soft on-ear cushions and lightweight, padded headband. And when it's time to move on, your JBL Tune 680NC folds flat for easy storage in your everyday bag.

### **Customize your sound with the JBL Headphones app**

Use the JBL Headphones app to configure Personi-Fi 3.0 and tailor your music to match your audio profile. Customize the EQ or choose one of the presets, control your Smart Ambient settings, and more.

### **Google Fast Pair and Microsoft Swift Pair**

Pairing with Android or Windows 10/11 has never been easier. Just turn on your JBL Tune 680NC headphones and follow the

instructions. No menus, no delays, just smooth listening.
