

## TRAVELPRO 3-IN-1 TRAVEL CHARGER 30W

Power bank + Travel charger + Magsafe

REF : XT-XTTP101

EAN : 8720195102021

EXISTS IN : BLACK

### DESCRIPTION :

At home, on the go or while travelling: this 3-in-1 Travel Charger is the perfect charging solution for any situation, wherever you are in the world!

### STRENGTHS :

#### **Perfect for home, travel or on the go**

This 3-in-1 Travel Charger makes recharging completely #TravelProof. Thanks to the interchangeable plugs, you always have a versatile wall charger at hand, wherever you are in the world. You can easily charge all your small devices on the go with the power bank function, both wired (with the integrated cables) and wireless. The convenient drawstring pouch keeps everything neatly together. You can simply take the charger with you in your hand luggage when travelling by plane.

#### **Wall charger with 30W SuperCharge**

The 3-in-1 Travel Charger can be used almost anywhere in the world as a wall charger. The integrated US plug is foldable so you can simply click the EU or UK plug over it, making it ideal for travelling. The charger has two integrated USB-C cables that provide #MoreEnergy to your mobile devices with 30W SuperCharge.

#### **10,000mAh power bank with 20W SuperCharge**

With a 10,000mAh capacity, the 3-in-1 Travel Charger has enough power to fully charge a smartphone twice. You can also charge your headphones, earbuds, tablet, camera, or drone while on the go. With 20W SuperCharge, charging is super-fast. The 4 LED lights indicate the battery level of the charger.

#### **Magnetic wireless charging with Xtorm MagCharge**

The Travel Charger can also be used as a 10,000mAh magnetic wireless power bank. This magnetic charging technology, called Xtorm MagCharge, works similarly to Apple's MagSafe. It allows you to charge compatible wireless earbuds or

smartphones via the MagCharge surface. iPhones charge at 7.5W, and other compatible phones like Samsung or OnePlus charge up to 15W. The oval LED on the Travel Charger lights up during wireless charging.

## **2 integrated USB-C cables**

The charger design includes two integrated USB-C cables, both capable of quickly charging your phone, tablet, or headphones with 20W SuperCharge. The longer cable can be fully detached and used separately. When charging two devices at the same time, the combined output is a maximum of 15W.

## **Power bank recharging in two ways**

The USB-C port, revealed when removing the USB-C cable, can be used to charge the internal battery of the 3-in-1 Travel Charger. The internal battery also recharges automatically when the charger is plugged into a power outlet.

## **Made of durable, premium materials**

At Xtorm, we work hard to minimize our environmental impact. The Travel Charger housing is made from 85% GRS-certified recycled plastic and the USB-C connectors contain 60% GRS-certified recycled plastic. The cables are woven, durable, and endure thousands of bends. Xtorm technology ensures safe and fast charging for all your devices. The 6-layer safety check makes this charger completely #TravelProof.

## **CHARACTERISTICS :**
