

SOLIDSAFE™ 10.000MAH SOLID-STATE MAGNETIC POWER BANK BLACK

10K magnetic battery with solid-state cells that reduce the risk of liquid lithium

REF : BM-939-10-BL

EAN : 8885022400050

EXISTS IN : BLACK, ORANGE, SILVER

DESCRIPTION :

SolidSafe™ 10K is the next-generation magnetic battery designed for a world where traditional lithium batteries are increasingly under pressure. Its solid-state chemistry significantly reduces the flammable liquid found in conventional lithium-ion batteries and is engineered to withstand extreme conditions and prevent failures. In fact, 9to5Mac subjected it to stress tests that would typically cause traditional batteries to catch fire.

In a landscape of recalls, fires, and increasingly strict airline regulations, SolidSafe™ 10K redefines how portable power should be built. It delivers magnetic Qi2 wireless charging up to 2x faster, a color LCD screen that shows how much power you have and at what speed you're charging, and an integrated USB-C cable so you never forget your cable and can charge your phone or the battery itself more efficiently.

Its precision-milled unibody aluminum chassis is built to last and dissipate heat more effectively, offering a solid and premium feel. And for worry-free travel, SolidSafe™ 10K complies with TSA carry-on regulations: bring it on board, keep your devices powered, and travel with greater safety and peace of mind.

STRENGTHS :

Safety and Technology

- **Built with semi-solid state cells**

Semi-solid state chemistry reduces flammable liquid to a fraction, providing more stable charging and lower fire risk.

- **Airplane Mode**

Special travel mode that places the system in a controlled state, safer for flights and storage, adding an extra layer of protection to the solid-state design.

Wireless and Wired Charging

- **Magnetic Qi2 Wireless Charging**

- Precisely aligns with MagSafe-compatible phones.
- Delivers up to **15 W** of fast charging for iPhone, Galaxy, Pixel, and more.

- **30W USB-C Fast Charging**

- Fast and efficient wired charging for phones and small tablets with USB-C Power Delivery.

- **USB-C Cable Always Ready**

- The integrated lanyard functions as a charging cable.
- Enables faster and more efficient charging than wireless and can also recharge the power bank itself.

Capacity and Portability

- **10,000 mAh for all-day power**

- Compact design with double the capacity.
- Enough power to keep your phone and earbuds running throughout the day.

Display and Control

- **Color LCD Screen**

- Bright and easy to read.
- Displays real-time battery level and charging speed, so you always know how fast it's charging and how much power remains.

Advanced Charging Features

- **Charge up to three devices at once**

- Simultaneously powers a phone, a tablet, and earbuds using the two USB-C outputs and Qi2 wireless charging.

- **Pass-through charging**

- Charge your phone while recharging the power bank at the same time via USB-C Power Delivery.
- Stay powered without waiting for the external battery to fully recharge first.

CHARACTERISTICS :

- **Capacity:** 10,000 mAh
- **Wireless Output (Qi2):** 15 W
- **USB-C Outputs (C1, C2):** up to 30 W max. each
- **USB-C Input:** up to 27 W max.
- **Integrated USB-C to USB-C Cable Output:** up to 60 W
- **Simultaneous Charging (C1 + Qi2):** 12 W + 12 W
- **Dimensions:** 102.7 mm × 68 mm × 18.9 mm
- **Weight:** 209 g

Compatibility

- **iPhone**
- Other smartphones compatible with **USB-C Power Delivery** or **Qi2**

COMPATIBILITY :

From iPhone 12 to the latest iPhone, Certified Qi2
