## DOORBELL CAMERA G400 SELECT (WIRED)

Secure video doorbell with 2K image quality, advanced presence detection, Zigbee hub features

REF : AQ-DB-C03D

EAN : 6978350350639

EXISTS IN : GREY

### DESCRIPTION :

The Doorbell Camera Hub G410 Select smart video doorbell provides advanced and secure home monitoring. Featuring 2K resolution and a 175° ultra-wide lens, it clearly captures every visitor. Thanks to its built-in mmWave radar and AI-powered local facial recognition, it accurately identifies people while reducing false alerts and protecting privacy. Compatible with Apple HomeKit Secure Video, Google Home and Alexa, it easily integrates into your smart home ecosystem. Its built-in Zigbee hub and Matter controller also allow connection and control of multiple smart devices. With expandable local storage, encrypted video streaming and flexible power options, it offers a complete, reliable and secure entrance monitoring solution.

### STRENGTHS :

- 2K video doorbell with mmWave radar and local facial recognition for highly accurate alerts
- Built-in Zigbee hub and Matter controller with Thread compatibility
- Ultra-wide 175° lens with 4:3 aspect ratio for improved vertical viewing
- Multi-ecosystem compatibility: Apple HomeKit Secure Video, Google Home, Alexa and Aqara Home
- End-to-end encrypted video streaming for enhanced privacy and security
- Expandable local storage up to 512 GB for 24/7 recording
- Chime repeater improving Wi-Fi range and signal stability
- Flexible power supply: AA batteries or wired installation
- Customizable Do Not Disturb mode
- Smart automations that continue working even offline

### CHARACTERISTICS :
