

FEEDER AI LIFETIME FREE W/ SOLAR

Smart bird feeder with solar camera that detects, records, and identifies over 6,000 species in real time

REF : BI-EPPAMBNI8141110

EAN : 0761736483870

EXISTS IN : BLUE

DESCRIPTION :

Enjoy birdwatching from your mobile with NETVUE by Birdfy: a smart feeder with a solar-powered camera that automatically detects, records, and identifies the birds visiting your garden. Its AI recognizes over 6,000 species, sends you real-time notifications, and lets you watch videos and live streams from anywhere. Durable, bird-friendly design, cloud storage, and local options to save and share your best moments. Perfect for bird lovers and as a gift.

STRENGTHS :

- AI identification: recognizes over 6,000 bird species and automatically classifies each visitor.
- Automatic capture: the camera detects motion and records photos and videos without any intervention.
- Live view: watch birds in real time from your smartphone, tablet, or computer, wherever you are.
- Instant notifications: receive alerts on your mobile when visitors arrive.
- Solar power: runs on solar energy for greater autonomy and easy outdoor installation.
- High-quality video: 1080P resolution with color night vision to see details even at night.
- Zoom and close-ups: enables "selfie-style" captures with plumage details (up to 8x).
- Stable connectivity: 5 dBi antenna and support for 2.4 GHz Wi-Fi to maintain a strong signal.
- Bird-friendly design: house-shaped feeder, sturdy support, and materials that attract and protect birds.
- Weather resistant: IP65 rating for outdoor use in rain and dust.
- Large food capacity: 1.5 L container to reduce refill frequency.
- Small intruder control and deterrence: detects squirrels and allows you to scare them away with light, siren, or voice messages (e.g., "Go away").
- Flexible storage: recordings stored in Netvue Cloud (up to 30 days included), expandable via subscription or SD card.
- Easy sharing: organize and share photos and videos with friends and family through the app.
- Compatibility: app available for smartphones with access from tablets and computers.

- Ideal as a gift: perfect for birdwatching and nature enthusiasts.

CHARACTERISTICS :

- AI recognition: Lifetime free (identifies 6,000+ species)
- Material: PC + ABS
- Food capacity: 1.5 L
- Camera: 1080P FHD (video)
- Battery: 5200 mAh
- Charging: USB Type-C
- Connectivity: Wi-Fi 2.4 GHz (only)
- Antenna: 5 dBi
- Night vision: color (1080P)
- Two-way audio: microphone and speaker
- IP rating: IP65 (rain/dust resistant)
