Smart solar bird feeder with camera, automatic video capture, and motion detection. Renewable bamboo wood

REF : BI-EPPAMBNI8441110

EAN : 0761736484419

EXISTS IN : BROWN

DESCRIPTION :

NETVUE by Birdfy Bamboo is a smart bamboo bird feeder with a 1080P camera and built-in solar power. It automatically detects motion, records visiting birds and identifies them using lifetime-included AI. Crafted from upgraded renewable bamboo with a premium design, it makes an ideal gift for anyone who loves watching wildlife every day.

STRENGTHS :

- **Smart birdwatching with a natural touch:** made from renewable, biodegradable and recyclable bamboo certified by the FSC, this feeder supports sustainable forestry. Its natural look attracts wild birds and blends into your garden, while the solar panel provides green power day after day.
- **Durable bamboo & patented design:** tightly grained bamboo resists warping and cracking, and the carbonized shell helps prevent corrosion, outperforming traditional wood feeders. The 3.5 L grain bin is divided to hold two kinds of birdseed and can be easily refilled and cleaned by detaching the camera and shell.
- **AI identifies 6,000+ bird species:** this bamboo bird feeder camera uses advanced AI to accurately recognize over 6,000 bird species. Each user enjoys a 7-day free AI trial and flexible subscription plans via the Birdfy app, with real-time motion alerts so you'll never miss a feathered guest.
- **1080P clarity & color night vision:** capture every move with smooth, high-definition streaming. Color night vision keeps your footage vivid even in the dark, and two-way audio lets you listen to birdsong or deter unwanted visitors like squirrels and other animals.
- **Easy sharing & free cloud storage:** access your last 30 days of bird photos and videos in the cloud, and expand storage with an SD card if needed. Cast the live feed at home to inspire your children's interest in nature or share the joy of birdwatching with friends and family.
- **Stylish, award-winning gift:** NETVUE Feeder Bamboo features a refined modern design that stands out as a special present. With over 3,000 media endorsements and USA Today Editors' Choice awards in 2023 and 2024, it's loved by

birdwatchers worldwide and backed by 24/7 customer support.

CHARACTERISTICS :

1. AI Recognition: Lifetime Free
2. Material: Bamboo, ABS, PMMA, Metal
3. Bird Food Capacity: 3.5 L
4. Camera Resolution: 1080P FHD Video
5. Battery: 5200 mAh
6. Charging: Type-C
7. Network Connection: 2.4 GHz Wifi Only
8. Waterproof Rating: IP65
9. Working Temperature: 14°F ~ 113°F (-10° ~ 45°C)
10. Two-way Audio: Microphone & Speaker
11. Warranty: 2 years
