### DESCRIPTION :

The Birdfy Bamboo is a smart bird feeder made from real bamboo and equipped with a 1080P camera that automatically captures visiting birds and sends instant notifications to your phone. Its powerful AI helps recognize the species that land to feed, while the natural design blends beautifully into any garden. Eco-friendly, stylish and connected, it's an ideal gift for nature and bird lovers.

### STRENGTHS :

- **A greener way to watch birds:** Made from renewable, biodegradable, and recyclable bamboo, FSC-certified, this camera feeder respects forests and blends naturally into your garden. Paired with a solar panel, it runs on clean energy for sustainable birdwatching.
- **Unique material & patented design:** Natural bamboo with dense fibers resists warping and cracking better. Its carbonized shell limits corrosion, where regular wood quickly shows its limits. The large 3.5 L reservoir, divided for two types of seeds, reduces refills and is easy to clean by detaching the camera and casing.
- **AI identification: 7-day trial:** Receive instant notifications when a bird lands and enjoy a 7-day free trial of Birdfy AI to identify over 6,000 species. A fun and simple way to learn about the wildlife in your garden.
- **1080P clarity & color night vision:** The Full HD camera captures every movement with smooth video, delivering clear footage day and night. Color night vision reveals vivid scenes even in darkness, and two-way audio lets you listen to bird songs and deter intruders.
- **Easy sharing & cloud storage included:** Enjoy free cloud storage to access videos and photos from the last 30 days, with expansion via SD card. Stream live at home to spark kids' curiosity or entertain pets, and share your best moments with the Birdfy community worldwide.
- **Innovative gift for enthusiasts:** With its award-winning bamboo design featured in over 3,000 media outlets, including USA Today Editors' Choice in 2023 and 2024, Birdfy Bamboo is a premium gift that delights birdwatchers

worldwide. Plus, benefit from 24/7 customer support.
