

HOUSE EBONY

Outdoor smart birdhouse, 1080P HD camera, solar panel

— Live viewing and hatching

REF : BI-EPPAMBNI8802110

EAN : 0810198940497

EXISTS IN : BROWN

DESCRIPTION :

Birdfy House Ebony is a smart wooden birdhouse with a 1080P camera and solar power, designed to let you watch nesting and hatching in real time. It provides a detailed view inside the nest while also acting as a feeder for a wide range of bird species. Perfect for observing every stage of bird life, from nest-building to the fledglings' first flights.

STRENGTHS :

- **Eco-friendly sloped roof design:** the sloped roof coated with eco-friendly black paint provides excellent waterproof and insect-resistant protection. Built from durable pine wood, it naturally attracts wild birds to nest and makes a thoughtful gift for bird enthusiasts.
- **1080P HD camera with behavior AI:** unlike traditional birdhouses, Birdfy House features a high-definition camera that captures every nesting moment in detail. AI detects key behaviors and automatically creates highlight stories of milestones like nest building, egg laying and feathering.
- **Free app connectivity & easy sharing:** connect to the Birdfy app to receive instant notifications when birds visit. Share the live video feed with up to 20 friends or guests and enjoy exciting birdwatching moments together.
- **Built for outdoor conditions:** with IP66 waterproofing and cold resistance, this birdhouse camera performs reliably even in winter. The large 9000 mAh battery combined with solar charging ensures long-lasting power with minimal maintenance.
- **User- and bird-friendly design:** the sloped-roof birdhouse is easy to mount and suitable for most nesting birds. It includes perches, ventilation holes and drainage, and is simple to clean, keeping the birds' home comfortable and healthy.

CHARACTERISTICS :

- AI recognition: behavior recognition, automatic creation of bird stories
- Material: fir wood
- Camera resolution: 1080P Full HD video
- Battery: 9000 mAh
- Charging: USB-C (Type-C)
- Network connection: Wi-Fi 2.4 GHz only
- Waterproof rating: IP66
- Operating temperature: -4°F to 122°F (-20°C to 50°C)
- Two-way audio: microphone & speaker
- Warranty: 2 years
