DESCRIPTION :

SaveFamily's most advanced smartwatch for kids takes a big leap forward in both technology and design. More than just a watch: a tool for connection, entertainment, and safety for your child.

STRENGTHS :

- Instant and accurate geolocation
- Calls and video calls with 2MP camera
- Customizable straps, cases, and watch faces
- Safe and advanced artificial intelligence
- Practical and comprehensive weather information
- Health sensors: heart rate, blood oxygen, and blood pressure
- SOS button and anti-bullying mode
- AMOLED display with Gorilla Glass: enhanced brightness and durability
- Water resistant IP68
- Configurable school mode

CHARACTERISTICS :

x000D

- Hybrid positioning: GPS / A-GPS with LBS and Wi-Fi support for improved accuracy both outdoors and indoors.

x000D

- Compatible with 4G/5G SIM cards (requires a minimum data plan of 260 MB/month) and management of authorized contacts.
x000D
- Communications: two-way voice calls and support for video calls (depending on the model).
x000D
- SOS button: emergency button that sends alerts and calls to predefined contacts.
x000D
- Geofencing (safe zones): creation of safe areas and entry/exit notifications.
x000D
- Route history: recording and viewing of routes in the app.
x000D
- Remote monitoring / one-way listening: ability to supervise the watch's surroundings (depending on configuration).
x000D
- Movement/fall detection: automatic detection and alert sending (if supported by the model).
x000D
- Display and ergonomics: comfortable design, easy for children to use (screen type/size can be specified if needed).
x000D
- Battery and autonomy: power-saving modes to optimize battery life (varies depending on usage and coverage).
x000D
- Speaker and microphone: built-in audio for clear, hands-free calls.
x000D
- Local connectivity: Bluetooth for syncing with accessories; Wi-Fi if applicable.
x000D
- Durability and materials: construction designed for daily use; check IP rating for water resistance.
x000D
- Compatible app: iOS/Android app to manage authorized contacts, geofences, history, SOS alerts, and remote settings.
x000D
- OTA updates and security: support for remote updates and basic data protection measures (see privacy policy).
