

SLIM SMART WATCH KIDS GREEN

Slim Smart Watch with GPS and call with Wi-Fi connexion, SOS button and face unlock

REF : SV-GPS-SLIM-VERD

EAN : 8425402875193

EXISTS IN : BLACK, PINK, GREEN

DESCRIPTION :

The SaveFamily Slim smartwatch is the perfect alternative to a smartphone, allowing you to stay connected with your child safely. With real-time GPS tracking, calls and video calls, and secure chat, it ensures constant communication wherever they are.

Featuring an SOS button, anti-bullying system, and secure contact list, it provides reliable everyday protection. Its slim, lightweight, and comfortable design is ideal for kids, while offering essential features such as a camera, 4G connectivity, and a configurable school mode.

STRENGTHS :

- Instant and accurate geolocation
- Calls and video calls
- SOS button and anti-bullying mode
- Secure chat via dApp
- 4G connec+L21+M21

CHARACTERISTICS :

- Hybrid positioning: GPS / A-GPS and complementary methods (LBS / Wi-Fi) for tracking both outdoors and indoors.
- Mobile connectivity and SIM: Compatible with 4G/5G SIM cards (requires a minimum data plan of 260 MB/month) and management of authorized contacts.
- Communications: two-way voice calls (and video calls if supported by the model).
- SOS button: emergency button that sends alerts and calls predefined contacts.
- Geofencing (safe zones): creation of safe areas with notifications when the user enters/exits.
- Route history: recording and viewing of traveled routes in the app.
- Movement/fall detection: automatic detection and alert sending (adjustable sensitivity).
- Remote monitoring / one-way listening: ability to listen to the watch's surroundings for supervision (depending on configuration).

- Display and ergonomics: slim and comfortable design for continuous use; touchscreen (size and type to be specified according to the datasheet).
- Battery and autonomy: built-in battery with power-saving modes (battery life varies depending on usage and coverage).
- Speaker and microphone: clear, hands-free audio for calls.
- Bluetooth and local connectivity: Bluetooth for accessories and synchronization (version to be confirmed).
- Durability and materials: construction designed for daily use (protection rating / IP to be confirmed).
- Compatible app: mobile app for iOS and Android to manage contacts, geofences, history, alerts, and remote settings.
- Security and privacy: management of authorized contacts, basic communication encryption, and parental control options (see privacy policy).
- OTA updates: support for firmware/app updates (depending on the manufacturer's policy).
