EXISTS IN : WHITE

**DESCRIPTION :**

Slim GaN 30 W Wall Charger (2x USB-C)

Compact, discreet and powerful, this wall charger combines GaN technology with an ultra-slim form factor to deliver fast and reliable charging without blocking your sockets. Thanks to its low-profile design, it is 56% shallower than a standard 30 W charger, making it ideal for outlets close to a wall or behind furniture.

With two USB-C ports, it can charge one or two devices simultaneously up to 30 W total, providing optimal power for iPhones, Android phones and other USB-C compatible devices. GaN technology reduces the charger's heat for a safer and more efficient charging experience.

Its compact dimensions are 84 mm (H) × 46 mm (W) × 42 mm (D). Input: AC 100–240 V~ 50/60 Hz, 0.8 A max. This model comes in white with an EU plug.

The pack includes the Slim GaN 30 W Wall Charger (2x USB-C) and a user guide. USB-C cable not included. The product is covered by a 5-year manufacturer warranty.

STRENGTHS :

- **Charge even in the tightest spaces.** With its slim, low-profile design, this Slim Wall Charger is 56% less deep than a standard 30W charger, so you can use it in every corner of your home.
- **Optimal power** to fast charge iPhones and other Android smartphones.
- **Charge one or two devices at the same time** thanks to the dual USB-C ports.
- **Advanced GaN technology** reduces charger heat for a safer, more reliable charging experience.
- **Comprehensive coverage** for five years for long-lasting peace of mind.
