

## GAMESIR NOVA 2 LITE LUMINOUS WHITE

Wireless controller for Switch, PC, and mobile

REF : GS-GST4N2001W-1

EAN : 6936685222533

EXISTS IN : GREY, WHITE

### DESCRIPTION :

The GameSir Nova 2 Lite is a versatile wireless controller designed for gaming on Nintendo Switch, PC, and mobile devices (Android and iOS). It features anti-drift Hall Effect sticks combined with adjustable Hall Effect triggers, delivering greater precision and a much longer lifespan than traditional joysticks.

You can use it via Bluetooth, the included wireless dongle, or a wired connection. On PC, it reaches a polling rate of up to 1000 Hz (both wired and via dongle), minimizing input lag. Its dual asymmetric vibration motors provide a more immersive gaming experience, with better-defined impacts and effects.

It includes two rear buttons that support both simple button mapping and macro recording, perfect for shortcuts and combos. The mechanical circular D-pad delivers crisp and responsive inputs, ideal for fighting or platform games.

With the GameSir Connect (PC) and GameSir (mobile) apps, you can customize sensitivity, button functions, macros, vibration, and more. All of this comes in a lightweight design with textured anti-slip grips and available in various colors.

### STRENGTHS :

- **Anti-drift Hall Effect sticks**  
Greater precision and durability, with no drift over time.
- **Hall Effect triggers with adjustable stops**  
Enable/disable stops for quick shots or full travel.
- **Flexible wireless connectivity**  
Bluetooth, included 2.4G dongle, and wired mode for Switch, PC, and mobile.
- **Up to 1000 Hz polling rate**  
Ultra-fast response both wired and via wireless dongle.

- **Immersive vibration**  
Dual asymmetric motors for more realistic impacts and effects.
- **Two rear buttons with macros**  
Supports button mapping and macro recording for combos and shortcuts.
- **Mechanical circular D-pad**  
Crisp and responsive input, ideal for retro, fighting, and platform games.
- **Full customization via GameSir apps**  
Adjust sensitivity, buttons, macros, and vibration on PC and mobile.
- **Comfortable anti-slip design**  
Laser-textured grips for better handling during long sessions.
- **Charging dock compatible**  
Works with the Super Nova charging station (optional).

## CHARACTERISTICS :

- **Platforms:** Nintendo Switch, PC, Android, iOS
- **Connectivity:** Bluetooth, wireless dongle (included), and wired
- **Sticks:** GameSir™ Hall Effect, anti-drift
- **Triggers:** Hall Effect with adjustable trigger stops
- **Buttons:**
  - Membrane ABXY
  - Mechanical circular D-pad
  - 2 rear buttons with macro support
- **Vibration:** Dual asymmetric motors
- **Gyroscope:** No
- **Battery:** 600 mAh rechargeable
- **Grips:** Textured anti-slip (laser-textured)
- **Charging dock:** Optional, compatible with the Super Nova dock
- **Customization software:**
  - GameSir Connect app (PC)
  - GameSir app (mobile)
- **Colors:** Midnight Gray \ | Luminous White
- **Size:** 155 × 104 × 57 mm / 6.10 × 4.09 × 2.24 in
- **Weight:** 225 g / 0.50 lb
