

GAMESIR X5S GRAY

Lightweight Bluetooth controller for mobile gaming

REF : GS-GSX5SG002-1

EAN : 6936685222557

EXISTS IN : GREY, GREEN, BLACK

DESCRIPTION :

The GameSir X5s is a wireless controller designed to turn your mobile or your Switch into a true handheld console. Its “grip-style” design expands to hold phones or consoles between 105 and 213 mm in length, and it weighs only 174 g, making it perfect to carry in your backpack at all times.

It connects via Bluetooth, USB-C cable, or 2.4 GHz (if you use a compatible dongle), and works with Switch / Switch2, Android, iOS, and PC. Its sticks use Hall Effect technology, preventing drift and giving them a much longer lifespan. The triggers are also Hall Effect, with smooth and precise travel for accelerating, braking, or shooting with full control.

It includes a 6-axis gyroscope for motion control (perfect for aiming by moving the controller) and two HD vibration motors in the grips for a more subtle and realistic response. The ABXY button layout is physical and interchangeable, allowing you to choose between Nintendo or Xbox style depending on the game or your preference.

It features a turbo function on the main buttons (A/B/X/Y/LB/RB/LT/RT) and textured grips with laser engraving to prevent slipping. All of this is powered by a total 840 mAh battery (420 mAh per side), configurable through the GameSir app, where you can adjust buttons, sensitivity, turbo, and more.

STRENGTHS :

- **Telescopic controller for mobile and Switch**
Compatible with devices from 105 to 213 mm in length.
- **Ultra-light for gaming anywhere**
Only 174 g, perfect for gaming on the go.
- **Versatile wireless connectivity**
Bluetooth, wired USB-C, and 2.4 GHz (dongle not included).
- **Hall Effect anti-drift sticks**
Greater precision and durability with no drift over time.

- **Precise Hall Effect triggers**
Smooth and progressive control for racing, shooters, and more.
- **6-axis gyroscope**
Motion control for aiming or steering by tilting the controller.
- **HD vibration on both grips**
Dual motors for a subtle and immersive response.
- **Physically swappable ABXY buttons**
Switch between Nintendo-style or Xbox-style layouts to suit your preference.
- **Turbo function on key buttons**
Turbo on A/B/X/Y/LB/RB/LT/RT for repetitive actions or shooters.
- **Textured and comfortable grips**
Laser-engraved anti-slip finish for better handling.
- **Long-lasting battery**
840 mAh total (420 mAh per side) for extended gaming sessions.
- **Customization via the GameSir app**
Adjust buttons, turbo, and other settings from your mobile.

CHARACTERISTICS :

- **Compatible platforms:** Switch, Switch2, Android, iOS, PC
- **Supported device length:** 105–213 mm / 4.13–8.39 in
- **Connectivity:**
 - Bluetooth
 - Wired USB-C
 - 2.4 GHz wireless (*2.4 GHz dongle not included*)
- **Sticks:** GameSir™ Hall Effect
- **Triggers:** Hall Effect analog
- **Motion control:** Yes, 6-axis gyroscope
- **Vibration:** 2 HD motors (one in each grip)
- **Buttons:**
 - Membrane ABXY, physically swappable layout
 - Membrane D-pad
 - Turbo on A/B/X/Y/LB/RB/LT/RT

- **Grips:** Textured with laser engraving
- **Software:** GameSir app
- **Battery:** 840 mAh total (420 mAh per side)
- **Power:** USB-C port
- **Dimensions:** 196.7 × 88 × 46 mm / 7.74 × 3.46 × 1.81 in
- **Weight:** 174.1 g / 0.384 lb
