DESCRIPTION :

The Basics are back. Same gesture, same silhouette, but this time redesigned with 50% recycled materials.

Basics²Life – MacBook Neo Edition is a sleeve tailored to the millimeter for the Neo. No looseness, no weak spots: the laptop fits the sleeve—not the other way around. At its core, a 5 mm memory foam absorbs everyday micro-shocks and instantly returns to its original shape.

Inside, a soft fleece lining protects the MacBook Neo's finish without leaving marks. On the outside, a matte black jersey—clean and understated—that blends into any environment. In between, a colored zipper: five shades, five ways to express yourself — Black, Moon, Rose, Lemon, Earth.

From the fabric to the zipper, including the foam, the composition incorporates 50% recycled materials. A simple, mindful sleeve, built to last.

STRENGTHS :

- **Tailored fit for MacBook Neo**

Pattern designed specifically for the Neo: no looseness, no exposed areas.
