

XTREME POWER 2 PORTABLE STATION 1800W

Portable Power Station 3000W

REF : XT-XP2W3000

EAN : 8718182277272

EXISTS IN : BLACK

DESCRIPTION :

The all-new Xtorm 3000W Smart Pro power station is incredibly powerful. Its smart features and innovations deliver the off-grid and backup power you need, making it ideal for outdoor adventures and emergency situations. Everything can be managed via the app, allowing you to monitor and control the power station remotely.

Thanks to its soft rubber wheels and telescopic handle, it's easy to move and transport wherever you go.

STRENGTHS :

13 outputs for all your devices Power multiple devices simultaneously Ideal for outdoor adventures and emergency situations Monitor and control via app or smart display Recharge the power station in 3 different ways PowerBoost up to 5000 W

CHARACTERISTICS :

Dimensions

- Item height: 34.30 cm
- Item width: 30.30 cm
- Item length: 53.60 cm
- Gross weight (item): 36,500 g
- Net weight (item): 34,000 g

Battery information

- Cell weight: 1,122.50 g

- Total cell weight: 17,960.00 g
- Number of cells: 16
- Battery type: LiFePO4
- Capacity: 2,560 Wh
- Battery charging time: 2.00 h

Inputs & power

- Input type: AC (C13 input)
- Input power: 2,300 W
- Input max voltage: 230 V
- Input max current (A): 10.00
- Max power: 3,000 W

Outputs

- Number of outputs: 13
- Output types: 12V car charger, AC socket, Anderson, DC5521, USB-A, USB-A Quick Charge 3.0, USB-C PD
- Output 1: 3× AC sockets (3000 W shared) — 230 V — 3,000 W
- Output 2: 2× USB-C PD (100 W each)
- Output 3: 2× USB-A QC3.0 (18 W each)
- Output 4: 2× USB-A (12 W each) — 5 V / 2.40 A / 12 W
- Output 5: 12V car charger — 12 V / 10 A / 120 W
- Output 6: DC5521 — 2× DC5521 (36 W each)
- Materials: ABS, PC, aluminium
- Water resistance: N/A
