DESCRIPTION :

The Quick-Flip Case offers a lightweight, low profile design with easy access integration for olloclip photo lenses. The case corner rotates and reveals the corner of the device to attach the lens ? cleverly, the flipped corner then becomes a shutter release by activating the "+" button. A removable Pro-Photo Adapter provides mounting options for tripods, lights, microphones and other photo and video accessories. Delivering more than protection, this clever design is a compact photo studio to go.
