

HOMEKIT DUAL SMART OUTLET (EU)

Dual Smart Outlet

REF : SA-ST-HK20AW-EU

EAN : 879961008215

EXISTS IN : WHITE

DESCRIPTION :

Simplify your home routine with the Satechi Dual Smart Outlet, ideal for controlling appliances remotely or automatically turning lights, coffee makers, TVs and more, off and on. Designed with convenience in mind, the Dual Smart Outlet features dual power outlets to individually control up to two connected appliances at once and real-time monitoring of your devices' power consumption over time.

STRENGTHS :

- WORKS WITH APPLE HOMEKIT
 - Designed to work with Apple HomeKit, the Satechi Dual Smart Outlet connects to your existing 2.4GHz wireless network and appliances to activate Siri, create scenes and schedule routines. Simply use the native Apple Home app or download the free Satechi Home app in the App Store. Does not work on 5Ghz network, please connect to a 2.4Ghz network
- MONITOR REAL-TIME ENERGY USAGE
 - Features real-time power monitoring so you can keep an eye on your high-powered appliances, help reduce excess power usage and schedule appliances to turn off when needed.
- "HEY SIRI, GOOD NIGHT"
 - Use the Home app to create customized scenes – like "Good morni
