

SOLID BLUE USB-C CABLE (2M)

USB-C cable (2m)

REF : XT-CS033

EAN : 8718182274608

EXISTS IN : BLUE

DESCRIPTION :

Xtorm Solid Blue cables are ultra resistant and designed to last. Every detail is designed to withstand the wear and tear caused by intensive use.

Ultra resistant materials

Solid Blue series cables are made of a multi-layer composite material that contains braided nylon and DuPont™ Kevlar® fiber. This composite material gives the cable its strength and durability.

Resistance to bending

Every Solid Blue cable contains XFLEX4, a technology that ensures that the connectors at both ends of the cable are resistant to bending. This has been tested under extreme conditions by bending the cable more than 30,000 times to ensure that they are of the highest quality.

STRENGTHS :

- **Ultra resistant materials**
- **Resistance to bending**
- **A lifetime warranty**
- **One cable for power and data**

CHARACTERISTICS :

- Output : USB-C Power Delivery
- Weight : 26 grams

COMPATIBILITY :

USB-C to USB-C
