

## TOTAL PROTECTION AIRPODS PRO BLACK

Protective Case for AirPods Pro

REF : CA-CAT100APDPROBLK

EAN : 4897041796858

EXISTS IN : BLACK, GREEN

### DESCRIPTION :

The Total Protection Case for AirPods Pro is the first of its kind in the world. This fully waterproof AirPods Pro case is not only IP68 certified, but it can be submerged up to 100 meters (328 feet) for complete and total protection. With a shock-absorbing silicone interior and rugged polycarbonate exterior, it offers drop protection up to 10 feet.

With the Airpods Pro2, Apple has introduced some new features.

An attachment point for the lanyard

A speaker system that will emit a tone to help you locate lost Airpods using the "Find my" feature.

With the current Catalyst lineup, the lanyard attachment point will not be accessible - but instead you'll have a beautiful carabiner.

The sound emitted by the speaker is reduced by about 20% - from 103Db to 80Db

Other than that, the size and shape are the same, so the case will fit perfectly.

### STRENGTHS :

- Advanced Locking System?
- Easy Access to Pairing Button?
- Impact Absorbing Silicone Interior?
