DESCRIPTION :

Cases can be functional, innovative or enhance the beauty of the device they are protecting. Njorð byELEMENTS products cover all bases thanks to a clever, creative and comprehensive design process that's sustainable, socially conscious and only uses genuine materials. Natural, exquisite precision from start to finish.

The design of our cases reflects the minimalist sophistication of Nordic aesthetics, beautiful in its simplicity, timeless in its styling, with a resolute depth of feeling in the care that's gone into crafting every aspect.

Premium Icelandic Salmon Leather

The skins for our salmon leather come from the fish farming industry, so no salmon has been killed for their skin. Our leather tannery in Sauðárkrókur (Iceland) embodies our brand DNA and utilizes the country's greatest resources, renewable hydro- and geothermal energy. This beautiful leather is produced with 0-carbon footprint.

STRENGTHS :

- Sustainable & Socially Responsible
