DESCRIPTION :

With the JBL PartyBox and the PBM100 Dynamic Vocal Mic, it's now possible to sing along with friends whenever and wherever you want. Plug the new high-performance JBL PBM100 Wired Microphone into your JBL PartyBox speaker and have a blast. Designed specifically to pair with the full line of JBL PartyBox speakers, the PBM100 delivers a unique sound experience. The easy plug-and-play setup lets you and your friends instantly sing along to your favorite songs. With the PBM100, you can create a party where everyone sings along for the ride of a lifetime. Let the party begin!

STRENGTHS :

- JBL performance quality
JBL's legendary audio equipment in one voice microphone.
- Easy to use
Just plug the mic into your PartyBox and sing along with your friends.
- Cardioid polar pattern
The cardioid polar pattern effectively captures your voice and reduces ambient noise, making this mic the perfect accessory for your vocal applications.
- Premium industrial design
Sleek, rugged housing designed to last and produce concert-quality sound.
- Screened cap with windscreen
Eliminates wind and background noise for extraordinary performance without interference.
