HOMEKIT SMART OUTLET (EU)

Smart outlet EU

REF : SA-ST-HK10AW-EU

EAN : 0879961008598

EXISTS IN : WHITE

DESCRIPTION :

Simplify your home routine with the Satechi Smart Outlet, ideal for controlling appliances remotely or automatically turning lights, coffee makers, TVs and more, off and on. Designed with convenience in mind, the Smart Outlet provides control of your connected device through the ease of your smartphone. Simply download the free Satechi app, plug in the Smart Outlet and connect your device over Wi-Fi for worry-free control, wherever you go.

STRENGTHS :

WORKS WITH APPLE HOMEKIT

Designed to work with Apple HomeKit, the Satechi Smart Outlet connects to your existing 2.4GHz wireless network and appliances to activate Siri, create scenes and schedule routines.

MONITOR REAL-TIME ENERGY USAGE

Features real-time power monitoring so you can keep an eye on your high-powered appliances, help reduce excess power usage and schedule appliances to turn off when needed.

"HEY SIRI, GOOD NIGHT"

Use the Home app to create customized scenes – like “Good morning” or “Good night” – and call on Siri to activate a pre-set series of house lights. HomePod, Apple TV, or an iPad is required for remote access or to create automated actions.
