HORIZON SCANWATCH 43MM BLUE

Hybrid connected watch

REF : WI-HWA09-MODEL7

EAN : 3700546707285

EXISTS IN : BLUE

DESCRIPTION :

ScanWatch is now available in a limited edition tribute to the iconic dive watches of luxury watchmaking and always at the forefront of medical technology. Developed in collaboration with cardiologists and clinically validated, ScanWatch is the first hybrid connected watch to be able to notify a user in case of atrial fibrillation or respiratory disturbances. ScanWatch also accurately tracks your activity, analyzes your sleep, is water resistant to a depth of 100m and offers an exceptional 30-day battery life before needing to be recharged.

STRENGTHS :

- Electrocardiogram
- Detection of atrial fibrillation
- Respiratory disturbances via PPG sensor and accelerometer
