"

Cases can be functional, innovative or enhance the beauty of the device they are protecting. Njorð byELEMENTS products cover all bases thanks to a clever, creative and comprehensive design process that's sustainable, socially conscious and only uses genuine materials. Natural, exquisite precision from start to finish.

The design of our cases reflects the minimalist sophistication of Nordic aesthetics, beautiful in its simplicity, timeless in its styling, with a resolute depth of feeling in the care that's gone into crafting every aspect.

Premium Icelandic Salmon Leather

The skins for our salmon leather come from the fish farming industry, so no salmon has been killed for their skin. Our leather tanned

STRENGTHS :

- Military Standard 810G, Drop Protection tested - keeps your mobile safe throughout those accidental drops.
- All our cases are cut perfectly to fit, with generous camera openings designed never to interfere with your phone's performance while allowing full access to buttons and the charging port.
- Optimal protection - silky soft microfiber inlay keeps your smartphone in perfect condition.

CHARACTERISTICS :

- Sustainable & Socially Responsible
- Elegantly designed, handcrafted cases made from premium Icelandic salmon leather

COMPATIBILITY :

iPhone 13 Pro, MagSafe
