DESCRIPTION :

Modern Leather Case is a sleek and refined take on the classic leather case, offering more protection with its TPE bumper and wrapped in our signature Horween leather that will develop a beautiful patina over time.

It is important to us to stand against the tide of products that all look and feel the same and instead build items with character. Horween leather is minimally treated, preserving many of the natural features of the hide; rather than correcting for blemishes or color variation, the Horween team embraces these imperfections as signs of authenticity and personality.
