DESCRIPTION :

The smarter, on-the-desk or on-the-go wireless charger

The on-the-Go ready version of the popular ChargeTree is a game changer. The slim, vertical format takes up minimal space on a desk or nightstand while charging three devices at once with a single cord, and the pop-out watch platform even enables nightstand mode. Folds compactly to travel from home to office to hotel and beyond, and still works as a charging platform even when collapsed.
