DESCRIPTION :

Sound is survival.

Enjoy incredible gaming, streaming and conference quality. The JBL Quantum Stream's high sampling rate and 14mm dual-capacitor design ensure that your voice will always be clear and powerful with zero background noise, or you can choose to switch between the various directional options when you want to capture the sounds around you. Need a quick break? Turn the sound on and off with the touch of a button, and the RGB-indicator ring will change color so you always know when the sound is on. Wherever you are, three adjustment options and a reversible stand make it easy to mount your microphone to suit your needs for simple, seamless plug-and-play communication.
