BODY SCAN SCALE BLACK

Scale and Connected Health Station

REF : WI-WBS08-BLK

EAN : 3700546707957

EXISTS IN : BLACK, WHITE

DESCRIPTION :

Body Scan is the most innovative health station ever designed. It incorporates Segmentation Body Composition, a state-of-the-art technology that provides the highest level of accuracy in assessing fat and muscle ratios. Also designed to identify changes in cardiovascular health, Body Scan offers multiple measurements at every weigh-in: pulse wave velocity, standing heart rate and, coming soon, a 6-lead ECG.

Developed with neurologists, Body Scan can also track your nerve health to help detect signs of peripheral autonomic neuropathy, to help detect disease and help doctors treat problems early.

Connected Health Station

A revolutionary at-home health check-up in just 90 seconds

The most advanced scale ever designed: it provides detailed information on cardiovascular and nervous system health, and assesses body composition with pinpoint accuracy.

STRENGTHS :

- **ULTRA-PRECISE EVALUATION OF BODY COMPOSITION**

With the handle, analyze the distribution of fat and muscle mass in each part of your body, and follow their evolution. Also access your visceral fat, lean body mass, water and bone percentage.

- **CONNECT TO YOUR HEART**

Identify changes in your overall heart health by detecting atrial fibrillation, the most common form of arrhythmia. Also get an assessment of your vascular health and standing heart rate at every weigh-in.

- **TAKE CARE OF YOUR NERVES**

Track your nerve health over time to detect peripheral autonomic neuropathy, one of the complications of diabetes*.

- **WEIGH YOURSELF ACCURATELY**

The scale is accurate to 50 g / 0.1 lb, and our exclusive Position Control technology ensures this accuracy by helping you position yourself correctly.

- **IMPROVE YOUR HEALTH**

With Health+, enjoy our exclusive library of content: workouts, recipes and educational articles to improve your health, week after week.

- **FOR THE WHOLE FAMILY**

Automatically recognizes and tracks up to 8 users. Baby mode makes it easy to track the weight of the smallest members of your family, simply by holding them in your arms.

- **WI-FI AND BLUETOOTH SYNCHRONIZATION**

Automatically sync all your data with the Withings app, Apple Watch or over 100 health and fitness apps, including Apple Health, Google Fit and Fitbit.

- **ALL IN COLOR**

Measurements, trends, a local weather report and an air pollution score are displayed directly on the device's high-contrast color LCD screen.

- **LONG BATTERY LIFE**

Body Scan's battery lasts up to 12 months. You can then recharge it with a USB-C cable (included).

CHARACTERISTICS :

- Dimensions :
 - Length: 357 mm
 - Length: 357 mm
 - Width: 325 mm
 - Thickness: 21 mm (46mm with the handle)
- Weight sensors : Four weight sensors
 - Weight: 5 -> 200 kg (9 -> 441 lb)

- Body Composition: Multi-frequency and segmental bio-impedance analysis
- Display: 3.2" 240*320 pixels high resolution LCD, color screen
- Power supply: Li-ion rechargeable battery
