EAN : 4260470099966

EXISTS IN : CLEAR

DESCRIPTION :

Fall in love with drawing and writing on your iPad. Paperlike 2.1 is a high-performance screen protector that uses Swiss materials and cutting-edge Nanodots® technology to bring the precision of paper to a paperless environment.

STRENGTHS :

- For writers & notetakers. From class notes and study sessions to first drafts of big ideas, Paperlike helps you bring natural handwriting into your digital process. Write normally using your Apple Pencil and leverage any app to keep track of your handwritten notes.
 - For every digital artist. Whether you want to sketch a scene or get started on your next big masterpiece, Paperlike can help. Our Nanodots technology ensures that your lines are straight and your strokes are precise, making it the perfect companion when drawing details and adding color.
- For busy professionals. Using a daily planner? Want to take notes during the office call? Need to pencil someone in for a meeting? Ditch the paper and digitize your workflow with Paperlike. Use an iPad to keep track of your day-to-day. Take notes, write naturally, and wrangle your workday onto a single device with the power of Paperlike.
- For you. Ready to ditch old notebooks and worn-out sketchbooks? Paperlike delivers unparalleled accuracy and precision to digital projects big and small. Empower your paperless process. Write, draw, and be more productive than ever before with Paperlike.
