Antimicrobial Silicone Case

REF : DE-D24IPO15BCS9AH

EAN : 8720593010850

EXISTS IN : ORANGE

DESCRIPTION :

The DECODED Silicone Back Cover is made from high-performance liquid silicone rubber and ensures an easy grip with a silky soft-touch exterior and is infused with Biomaster silver ion technology which reduces microbial growth offering product protection. The back cover is designed to protect your iPhone 15 from bumps and falls and has a raised bezel to prevent scratches on your screen. Made for maximum protection, with our new dropTek™ technology the case has a completely redesigned inside structure to absorb impact. In addition the bottom is covered ensures a solid fit. Designed with functionality in mind, the Back Cover is compatible with both MagSafe as well as wireless charging. The integrated magnets make sure the case and your iPhone align perfectly and lets you use any MagSafe accessory. New this season for the silicone back cover an all new iPhone 15 camera ring; this two layered anodised metal camera ring which features hand engraved Decoded branding. The volume buttons are finished in a matching anodised metal and provide superior functionality.

COMPATIBILITY :

MagSafe, iPhone 15
