SCANWATCH LIGHT ROSE GOLD

Next-generation hybrid connected watch

REF : WI-HWA11-MODEL1

EAN : 3700546708329

EXISTS IN : ROSE GOLD, BLACK, WHITE

DESCRIPTION :

ScanWatch Light is an elegant hybrid smartwatch designed to inspire you, seamlessly integrate into your daily life, and shed light on your health through advanced sensors. With its remarkable 30-day battery life, this watch allows continuous health tracking, letting you fully enjoy life without worrying about recharging.

Lightweight, stylish, and durable, ScanWatch Light accompanies you every day with continuous health monitoring.

ScanWatch Light automatically syncs with the free Withings app, enabling you to view your trends, get insights, and securely store your data.

STRENGTHS :

- Stay on Track

Automatically track all your movements and start a workout to get your heart rate zones, pace, and route through GPS connectivity.

- Follow Your Heart

Monitor your heart rate day and night to discover your baseline and be notified of any changes.

- Take a Breather

You can initiate a heart coherence session from your watch anytime to help you recenter yourself.

- It's Bedtime

Check your sleep quality score right upon waking up and discover what can enhance your energy level.

- Take Charge of Your Menstrual Health

Menstruation is one of the most important biomarkers that can be used to better understand your health. Track your symptoms, duration, and cycle phases to help you create a personalized routine tailored to your body's needs.
