The reinvented radio

The renowned Model One has been rejuvenated to become the Model One Digital, combining style, audio quality, and cutting-edge technology. This modern radio allows DAB/DAB+, FM, Wi-Fi, and Bluetooth® reception. Combining the user-friendly features of its predecessor with digital navigation display and a multi-functional dial for easy station or playlist changes. Its sleek style makes it a true interior decoration piece. The Model One Digital can be used: In mono, for simple standalone use; In stereo, connected via Wi-Fi to a CUBE speaker (for example) using the Tivoli Wireless app; In wireless mode, connected to multiple ART collection products to create a hi-fi system or multi-room setup. For an even easier listening experience!
